Experience

Backend Developer, Scaleup Ads Agency

December 2024 to Present
Mohakhali , Dhaka

Here, my primary role involves developing APIs with Laravel for frontend and mobile app developers. Additionally, I've contributed to WordPress development by working on custom plugins.

Achievements:

- ** Introduced **Filament** with laravel which already reduced **70%** of the development time.
- ** Introduced **Laravel – sail** where everyone can maintain different versions of php in a same machine in laravel as well as wordpress plugin.
- ** Developed an app with express within **7 days** (Learning and implementation of the ecommerce) as Client Demanded the project should be build in express, mongodb-mongoose,
- ** Improved **plugin development** time almost **90%** with react js instead of using jquery and js by solving state management and building rest api in wordpress using JWT.

Backend Developer, Unified Core LTD

July 2023 - December 2024
Eskaton , Dhaka

I have experience working on a Human Resource (HR) management system and a SaaS-based eCommerce platform, where I contributed to building scalable features, improving performance, and ensuring a smooth user experience.
