Summary

Software Engineer focused on designing **scalable, reliable applications** and strengthening expertise in **system design and distributed systems**.

Experience (3 years)

Software Engineer, RYQTO

July 2026 to Present

Mirpur , Dhaka

Responsible for backend development and site reliability engineering using PHP/Laravel, with React on the frontend. Develop full-scale ERP systems, design scalable APIs, and **modernize monolithic applications into microservices-based architectures**.

Achievements:

- * **Developed CICD pipeline. Reduced huge amount of deployment time.**
- * **Converting the Modules in microservice because maybe one customer needs only HR, no need of the Ecommerce only Hr part can be independently delivered and deployed.**
- * **Laravel Octane memory leakage problem and its solution in Multi db Multi tenant.**

December 2024 to Jun 2026

Software Engineer, Glifnode

Uttara , Dhaka

Here, my primary role involves developing APIs with Node express, Laravel for frontend and mobile app developers. Additionally, I've contributed to WordPress development by working on custom plugins.

July 2023 - December 2024

Backend Developer, Unified Core LTD

Eskaton , Dhaka

I have experience working on a Human Resource (HR) management system and a SaaS-based eCommerce platform, where I contributed to building scalable features, improving performance, and ensuring a smooth user experience.

System Design

1. Twitter or Facebook Feed Design, From Read-Heavy to Hybrid Approach
<https://github.com/zabeer001/system-design-articles/tree/main/twitter-fanout-tohybrid-approach>
2. Caching: Local Caching vs Redis Caching.
<https://github.com/zabeer001/system-design-articles/tree/main/caching>
3. Networking
<https://github.com/zabeer001/system-design-articles/tree/main/networking>

Projects

Ecommerce ERP:

* Accounting , Hr , pos system, multi outlet.

Live Demo Site: <https://pos-erp-laravel.officxyztest.sbs>

Credentials for all demo projects

<https://docs.google.com/spreadsheets/d/1FhkM9SlyfwHiZAGgsVeblIXKxl6ByAksvQNarPh7wFk/edit?gid=0#gid=0>

Multi tenant Multi DB SAAS IT ERP:

* Dependency injection with scoped resolved by service provider (tenant switching).

* Laravel Octane is used in production.

* Priority queue and Cron jobs added.

Live Demo Site: <https://erpit.zaxcode.com>

SOCIAL MEDIA APP (WEB + MOBILE):

- * Real Time chatting (socket) , video and audio calling feature.
- * Friends adding system.
- * Like Comment Share feature.
- * Google authentication (oauth2) (mobile + web)
- * Independently handled full-stack development and deployment (Frontend, Backend, APIs).
- * Login with google . Outh2.
- * Notification System.

Web Version:

Frontend: React,, Zustand , tanstack query , AXIOS.

Backend: Node express, Mongodb, Mongoose, pusher js.

Deployment: Hostinger VPS (UBUNTU).

LIVE LINK : <https://zstream.zabeer.online>

Mobile APP:

typescript , REACT Native, EXPO. (some modules and package are native)

Download app:

<https://expo.dev/accounts/zabeer32/projects/zstream/builds/a41f119a-2ace-4dab-91b0-d41cb71821cc>

NOTE: The backend, frontend, and mobile application were fully designed and developed by me independently, with no other developers involved in the project.

Tape Collection Project:

Special Feature:

- * GCS (GOOGLE CLOUD Storage integration.)

Booking System (Clean Code Strcuture) :

Special Feature: Auto-generated Google Meet link using **Google Calendar API***

- * Not only file more than 100 lines of code.

* Service Layer **SOLID** design patterns with DI (**Dependency Injection**). Interface Segregation Applied in Booking service.

Github: <https://github.com/zabeer001/calendly-clone>

Skills

Languages: JavaScript , PHP

DSA: Leetcode 60, CodeForce 40.

Primary Frameworks: Laravel, Node Express, React(Frontend) Secondary

Frameworks: Wordpress Plugin.

Deaign and Architechture: Singleton, Factory, Dependency Injection, IOC.

Database: SQL like databases , Mongodb (mongoose). **Devops:** Vps deployment, Docker , CICD, Monitoring(Application)

Business Applications: Ecommerce(Saas Based), Hr system , Movie App (AWS S3), Socket.io.

Education

BSC: Royal University, CSE|| CGPA: 3.67 || passing year: 2023
