Experience

December 2024 to feb 2026

Uttara , Dhaka

Software Engineer, Glifnode

Here, my primary role involves developing APIs with Node express, Laravel , wordpress and make web and mobile app with apis.

Achievements:

- ** Increased 50% values of maximum projects of wordpress which are assigned to me and proposing future requirements by analysis the business and generated many leads from there as a project manager.
- ** Introduced **Docker in wordpress** where everyone can maintain different versions of php in a same machine in laravel as well as wordpress plugin.
- ** Improved **plugin development** time almost **90%** with react js instead of using jquery and js by solving state management and building rest api in wordpress using JWT.
